

JRW

since 1947

WE
KNOW
FOOD.

INGREDIENTS & SUPPLIERS

We represent over 100 ingredient manufacturers and distribute more than 800 food ingredient items. We hire and train product experts and build lasting relationships with vendors. This allows us to provide our customers with competitively sourced, innovative ingredients, and, more importantly, the knowledge to make the most of them. We aim to offer our employees, customers, and community a better work-life balance and an opportunity to realize their greatest potential.

Our Mission

The John R. White Company, Inc. has operated continuously since the 1930's. Our current mission is exactly the same as it was when our founders began the business: We aim to provide our food manufacturing customers with premium, functional food ingredients, and the knowledge to make the most of them.

World Class Service

We go the extra mile to be sure your unique and dynamic business needs are met. We're available and easy to contact, flexible, and involved.

Trust

We guarantee your orders are delivered accurately and on-time. JRW was the 2nd company in North America to receive BRC certification for Food Storage & Distribution, most recently receiving a AA rating. We have also been a TraceGains Certified Partner for several years and won multiple awards at their annual conference for strong performance in the area of quality and technical documentation.

More Than Distribution

Our deep industry expertise is available to you; leverage our knowledge to help your business innovate and grow. We have knowledge of both the food industry and food application. We've been in this business for over 70 years, so we've weathered through changing trends, regulation, and innovation. We'll bring everything we know to the table and let it work for you. Need help with inventory management, technical assistance, or formulation specifics? We'd love to help.

Community

We believe business is about people; we're committed to making a difference in the lives of those around us. We are only as strong as our partners and people. We're committed to being a difference-maker in our communities, supporting charities and promoting good causes. And we want to help our customers, too, in any way possible — let us know what we can do to help.

The JRW Difference

We find great satisfaction in being the product behind the products, and in being a partner with each of our clients. Because of our history in the food industry, we have a deep understanding of the nature of food ingredients and their uses. We are confident that no one understands more about how to help you create food products that are nutritionally sound, efficiently produced, and delicious.

The John R. White Company is proud of the vast body of expertise we've built throughout our history, but we understand that our credibility is dependent on the customer service and the products that we currently provide. Every day, our goal is to be a little better than the day before and remain a valued partner to each and every one of our customers.

We Are Where You Need Us

Today, our company represents over 100 ingredient manufacturers and 800 active customers with a concentration across the South. With a technically knowledgeable sales force unmatched in the industry, we're able to provide on-time distribution to more than 38 states and product preservation and food safety standards that meet all of our client's needs.

Industries We Serve

- Bakery & Snack
- Beverage & Premix
- Clean Label
- Dressings, Soups, & Sauces
- Dry Blending & Milling
- Meat & Poultry
- Pet Food
